MANAGEMENT DISCUSSION AND ANALYSIS

This analysis report is Management's perspective of economy, market and Company's performance. The analysis statements can be termed as company's perspective of the situation and can also be explained with the words like planning, estimation, expectation, anticipation, etc. The Company is not in a position to guarantee to make changes or modifications in the analysis report based on future Changes of situation and announce it publically.

(A) THE ECONOMY :

The financial year 2012-13 was a challenging period for both businesses and policy makers. At the global level, the debt crisis in European countries like Greece, Ireland and Portugal Remained a cause for concern. There were also uncertainties about the pace of economic Recovery in the western world and the likely spike in commodity prices. The international Markets continue to remain volatile. The rising prices and the gradual withdrawal of the fiscal stimulus in many countries are likely to taper the pace of growth. The political crisis in several countries in the Middle East and North Africa has also impacted the global economy. On the domestic front, the key issue remains the inflationary pressures being faced by the economy despite several measures taken by the Government and the Reserve Bank of India. Persistent devaluation of rupee is also a cause of concern. At the same time, policy makers have been alive to the need to nurture economic recovery in the face of global uncertainty. Interest rates have been on the uptrend and this will have an impact on the profitability of businesses. The good monsoon across the country has contributed towards healthy growth of the agriculture sector. However, the manufacturing sector grew at a slower pace as compared to the previous year. With key commodity prices expected to remain at elevated levels in 2013-14, there could be an impact on the pace of economic growth.

(B) THE INDUSTRY:

Petrochemical industry plays a vital role in economic growth and development of manufacturing sector. The value addition in the petrochemicals industry is higher than most of the other industry sectors. The Petrochemical industry, which entered in the Indian industrial scene in 1970s, registered a rapid growth in the 1980s and 1990s. Today, petrochemical products permeate the entire spectrum of daily use items and cover almost every sphere of life like clothing, housing, construction,

furniture, automobiles, household items, agriculture, horticulture, irrigation, packaging, medical appliances, electronics and electrical etc. In India, demand for the petroleum products has increased 2011-12 compared to 2010-11. About 142 million tons of petroleum products were consumed during the year. The growth in demand was confined mainly to transport and residential fuels. Petrol and diesel recorded a growth rate of about 11% and 7% respectively. Aviation fuel demand increased by about 10% reflecting turnaround in the sector. LPG demand also increased by a healthy 10% indicating rising penetration. Demand for industrial fuels such as FO/LSHS, however, declined due to availability of cheaper alternatives such as natural gas. For the first time in last five years, bitumen consumption fell by about 7%.

(C) INDUSTRY STRUCTURE AND DEVELOPMENTS :

The chemical and petrochemical sector in India presently constitutes 14% of the domestic Industrial activity. It should be noted that investments in this sector are highly capital intensive with long gestation periods.

The automotive industry saw very good growth in 2011-2012. The growth was across categories, with the passenger vehicles segment growing by over 29% and the commercial vehicles segment growing by 28%. It is believed this upward trend will be sustained in the foreseeable future strong domestic market.

(D) ABOUT ATREYA :

ATREYA was established to manufacture various petrochemical downstream products such as specialty oils, petroleum sulphonates, solvents, etc. for industrial applications such as rubber, leather, ink and paint industries. We market and sell our products under the Brand “Ecol Lubricants”. We have an up to date processing plant situated at Tundav Village in Gujarat on an eight acre plot. Our plant is classified as Mini-Refinery to process crude oil and hydrocarbons to various end products.

Ecol is a well-entrenched brand in industrial oils. Ecol products are manufactured to meet the norms laid down by BIS, API and JASO. High Quality Standards have been a critical element in the marketing strategy of Ecol to capture a sizeable share in the domestic market in a short span of time. We are focused of delivering the best quality at an affordable price and continuous up-gradation to the State of the Art Technology.

❖ **Our Product Line:**

Your Company produces many products like ERL 15W40 (API-CF4), APL 20W40 (API-CF), ECY 4T - OIL (API-SL), ECY 2T (API-TC), ERL GEAR EP90 (GL-4), ERL GEAR EP140 (GL-4), and many others which can be used for equipments like Auto, Car LMV, Trucks, Buses, Excavators, Tippers & Dozers Fitted with Tata, Ashok layland, Iveco, Hino engines as well as two wheeler, three wheeler, LMV, Commercial vehicles, Tractors, MUV such as Safari, Scorpio, Sumo etc. & heavy-duty commercial vehicles. A brochure of our products is available on our website, www.atreypetrochem.com.

The company has also commenced commercial production since April 2013 in the same line of business of inorganic chemicals like Sodium Bi-Sulphate, solution 28.32%, sodium sulphate and sodium meta by sulphate.

❖ **Our Strategy:**

The lubricant industry in India is broadly divided into three major market sectors:

- ⇒ Automotive,
- ⇒ Industrial and
- ⇒ Marine & Energy Applications.

The Industry is led by four major players (Castrol India Limited, Bharat Petroleum Corporation Limited, Indian Oil Corporation Limited and Hindustan Petroleum Limited) who contribute to approximately 70% of the market. These corporations earn a huge share of their revenues from the metros and Tier I Cities. The consumers in these locations are not very price sensitive and hence would prefer a big brand over an upcoming brand even at a very high premium. Hence it is very difficult for us to compete these huge corporations in their home ground.

Thus, in order to grab a pie in the market share, we are targeting the Tier II & Tier III cities Where the consumers are more price-sensitive and are not very brand conscious. This shall enable us to sell our low cost products and build customer loyalty.

We shall focus on innovative and cost-effective methods of marketing our products which shall help us maintain higher margins.

(E) OPPORTUNITIES AND THREATS.

(I) Opportunities

a. Overall economic activity:

With an expected GDP growth of around 5% in 2012 and growth in the industry and Infrastructure services sector, the basic consumption drivers for lubricants remain intact and are all set to make the industry grow. We expect growth in the economy to impact directly the movement of goods and hence increase consumption of commercial vehicle engine oils.

b. Growth in personal mobility:

Growing personal disposable incomes, double income households and aggressive marketing by automobile manufacturers continue to drive demand for passenger cars and two wheelers. This growth in the personal mobility segment would have a positive impact on your Company's performance.

c. Original Equipment Manufacturers:

India is home to a vibrant automobile market. It has been one of the few markets worldwide which saw growth in passenger car sales even during the global downturn. Your Company is strongly poised to leverage this emerging boom in India's auto industry.

d. Infrastructure growth:

The Finance Bill of the government announced that it would significantly increase spending on various infrastructure projects. This move will stimulate demand growth in the building and construction sector and thereby have a positive impact on lubricant demand.

(II) Threats

❖ **Automotive sector**

a. Input costs:

With crude oil prices pushing up cost of base oils, additives and packaging material, margins are expected to be under pressure during the year and potentially impact demand as

the lubricant industry passes a portion of the increased costs to customers.

b. Competitive activity:

The Indian lubricant market is highly competitive. Given the fact that most international players have identified India as a focus market, this is likely to intensify.

c. Longer oil drain intervals:

This can significantly impact volume growth in the market, especially in the commercial vehicle segment.

❖ **Non Automotive sector**

a. Input costs:

Manufacturing companies will continue to feel the heat of rise in raw material prices and if not mitigated, this might impact the growth momentum. Crude oil prices have been going up persistently. Higher base oil prices, coupled with increase in other raw material costs, are likely to impact input costs adversely.

b. Industrial growth:

Whilst the manufacturing sector has recovered and is in the growth phase, the global situation may still impact its trajectory. Further, in spite of robust growth in the industrial environment, the focus on operational efficiency could dampen the growth rate for lubricants.

(F) RISKS, CONCERNS AND OUTLOOK

The overall business environment remains extremely challenging. Atreya is therefore, likely to encounter several risks in the course of its operations. The possible upward movement in international oil prices remains a major area of concern, given the level of dependency on imports for meeting the crude oil requirements of the refineries. Persistent devaluation of rupees may aggravate this problem. While there is optimism on the sustained growth of the Indian economy, developments around the globe could lead to a slowing down in the pace of growth. This in turn, may cause a fall in demand for energy, thereby affecting the growth of the petroleum sector. If the current high interest rate scenario were to persist for a considerable period of time, the cost of borrowings could increase substantially and thereby, erode the company's profitability

and affect its ability to raise resources needed to fund its capital expenditure plans.

Thus to summarize, the key business risks for the Company can be broadly around the following:

Areas:

- ❖ Continued increase in drain intervals in the commercial vehicle segment.
- ❖ High levels of employee attrition.
- ❖ Reviving economy leading to inflationary pressure resulting in a sharp increase of input costs.
- ❖ Price under-cutting by low-cost as well as international competitors in an attempt to gain volume share.
- ❖ Hardening interest rates leading to slowdown in sale of commercial and personal mobility vehicles. While the risks and concerns appear to be quite significant, Atreya remains confident of being able to mitigate the same and effectively deal with the challenges. Further your Company has put together a plan to address the impact of the identified risks and has put in place the necessary mitigating actions Thus Atreya continues to concentrate on achieving greater operational efficiencies and enhancing the focus on execution and is geared up to continue delivering excellence in all areas of operations in the days to come.

(G) INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Your Company maintains an adequate and effective Internal Control system commensurate with its size and complexity. We believe that these internal control systems provide, among other things, a reasonable assurance that transactions are executed with management authorization and that they are recorded in all material respects to permit preparation of financial statements in conformity with established accounting principles and that the assets of your Company are adequately safe-guarded against significant misuse or loss. An independent Internal Audit function is an important element of your Company's internal control system. The internal control system is supplemented through an extensive internal audit program and periodic review by management and audit committee.

(H) HEALTH, SAFETY, SECURITY AND ENVIRONMENT

Health, Safety, Security and Environment (HSSE) is a core value of your Company. Simply stated, our goals are: no accidents, no harm to people and no damage to environment. The health, safety and security of everyone who works for your Company is critical to the success of the business.

Your Company has always striven to be responsible and sensitive to ecological and environmental matters. This is ensured by protecting, conserving and restoring all natural Resources, often far beyond what is mandated by government and other institutional policies. Your Company is committed to complying in full measure with all regulations relating to the preservation of the environment around its operations. By constantly upgrading technologies and by applying the best of sustainable processes and practices, the Company endeavors to provide environmental issues the priority they deserve. Further your Company is also dedicated to constantly improving its performance on prevention of pollution, proper use of natural resources and minimization of any hazardous impact stemming from production, development, use and disposal of any of its products and services.

(I) HUMAN RESOURCES

Your Company firmly believes that its employees are the key to driving performance and developing competitive advantage. The emphasis has been on proper recruitment of talent and empowerment while devoting resources for their continuous development. The structured recruitment process, which the Company employs, focuses on recruiting people who have the right mindset for working at Atreya, supported by structured training programmes and internal growth opportunities. The basic objective has been to unlock the people potential and further developing their functional operational and behavioral competencies so as to build a team of dedicated employees who work with passion, zeal and a sense of belongingness and play a defining role in significantly accelerating the growth and transformation of the Company, thereby, consolidating its position in the market as one of the top petrochemical industries in the country.

AUDITOR'S REPORT

To,
**The Members of
Atreya Petrochem Ltd.
(Formerly known as Jal Hi Power Petrochem Limited)**

Report on the Financial Statement:

We have audited the accompanying financial Statement of **Atreya Petrochem Ltd.** (the Company) which comprises the Balance Sheet as at 31st March 2013, and the statement of Profit & Loss A/c and Cash Flow Statement for the year ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements:

The Company's management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, and financial performance and cash flow of the company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility:

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor

considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion:

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2013;
- b) in the case of the Profit and Loss Account, of the profit for the year ended on that date : and
- c) in the case of the Cash Flow Statement, the cash flows for the year ended on that date

Report on other legal and Regulatory Requirement:

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that:
 - a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books
 - c) the Balance Sheet, and Statement of Profit and Loss, dealt with by this Report are in agreement with the books of account.

- d) in our opinion, the Balance Sheet, and Statement of Profit and Loss, comply with the Accounting Standards referred to in subsection (3C) of section 211 of the Companies Act, 1956;
- e) on the basis of written representations received from the directors as on March 31, 2013, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2013, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

**NOTES TO ACCOUNTS FORMING PART OF THE
BALANCE SHEET AS AT 31ST MARCH, 2013**

Notes - “1”

A. COPROPRATE INFORMATION

Atreya Petrochem Limited (Formerly known as Jal Hi Power Petrochem Limited) is Public Limited- Listed Company incorporated in India under the provisions of the Companies Act, 1956. The Company's strength lies in the business process of manufacturing of various Petrochemical Downstream Products such as Specialty Oils, Petroleum Sulphonates, Solvents, etc. for Industrial Applications such as Rubber, Leather, Ink and Paint Industries. It is well recognized as a 'Partner of Choice' by leading Companies across the country.

B. Basis of preparation and presentation of financial statements

The Accounts of the Company are prepared under the Historical Cost Convention on the Accrual Basis of Accounting in accordance with the Generally Accepted Accounting Principles in India (“GAAP”) and in compliance with the mandatory Accounting Standards notified under the Companies (Accounting Standards) Rules, 2006, as amended, and with the relevant provisions of the Companies Act, 1956. The Financial Statements are presented in Indian Rupees rounded off to the nearest rupees.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of financial statements and the results of operations during the reporting periods. Examples of such estimate include future obligations under employee benefit plans, income taxes, useful lives of fixed assets and intangible assets, impairment of assets, provision for doubtful debts etc. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could vary from these estimates. Appropriate changes in estimates are made as the management becomes aware of the changes in circumstances surrounding the estimates. Any revision to accounting estimates is recognized in the period in which such results are known/ materialized. Effect of material changes is disclosed in the notes to

the financial statements.

The Company has also reclassified the previous year figures in accordance with the requirements applicable in the current year.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the revised Schedule VI to the Companies Act, 1956. Based on the nature of products and the time between the acquisitions of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current-non-current classification of assets and liabilities.

C. SIGNIFICANT ACCOUNTING POLICIES:

a) Fixed Assets & Depreciation.

- (i) Fixed assets are stated at Cost less Accumulated Depreciation/ Amortization. Cost comprises the Purchase Price and any such costs attributable for the purpose of bringing the asset to its working condition for its intended use.
- (ii) Fixed Assets under construction, Advances paid towards acquisition of Fixed Assets and Cost of Assets not ready for use as at the year end, are disclosed as Capital Work-In Progress.
- iii) Depreciation is provided on SLM basis at the rate and method prescribed under schedule XIV of Companies Act 1956 except Computer.

b) Investments

Investments classified as long-term investments are stated at cost. Diminution in the investment has not been worked out and provided.

c) Inventory

Inventory comprises of raw materials, Semi finished and finished goods and are valued at Cost or net realizable Value, whichever is lower. Packing Material is considered as finished goods.

Consumable stores are written off in the year of Purchase.

d) Employee Benefits

Provision for Gratuity has not been made as none of the employee have completed the minimum qualified period of services.

e) Claims, Demands and Contingencies

Disputed and or contingent liabilities are nil.

f) Provision for Current and Deferred Tax:

i) Tax liability of the Company is estimated considering the provision of Income Tax Act, 1961.

ii) Deferred tax is recognized subject to consideration of prudence, on timing difference being the difference between taxable incomes and accounting income that originate in one period, and are capable of reversal in one or more subsequent period(s). Such deferred tax is quantified using rates and laws enacted or substantively enacted as at the end of the financial year. In the absence of virtual certainty of sufficient future taxable income, deferred tax assets are not recognized in the account.

g) Impairment of Assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognized in the Profit and Loss Account. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

h) Revenue Recognition:

Revenue is recognized to the extent that it is probable that the economics benefits will flow to the Company and the revenue can be reliably measured.

Sale of Goods:

Revenue is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer. Sales are reported net of Sales Return, Sales Tax and Excise Duty.

Interest:

Revenue is recognized on a time proportion basis taking into accounts the amount outstanding and the rate applicable.

i) Foreign currency transactions

Transactions in Foreign Currency and Non-Monetary Assets are accounted for at the Exchange Rate prevailing on the date of the transaction. All monetary items denominated in Foreign Currency are converted at the Year-End Exchange Rate. The Exchange Differences arising on such conversion and on settlement of the transactions are recognized as income or as expenses in the year in which they arise.
